

## SC-11 ECO Solvent Satin Canvas

SC-11 ECO Solvent Satin Canvas is a premium flexible heavy weight satin coated canvas that is designed specifically for solvent inkjet printing. Its 19 mil premium coated satin - textured surface makes it an optimal choice for all solvent printing applications where a high grade canvas base is needed. The vibrancy of the printed image is dramatically enhanced compared to non-coated canvas. It also works well with water borne and UV overcoat laminates.

### Product Categories

### ECO Solvent Media

### Available Sizes

50" X 50'; 54" X 50'; 60" X 50'; 17" X 75'; 24" X 75';  
36" X 75'; 42" X 75'; 44" X 75'; 50" X 75'; 54" X 75'; and  
60" X 75' available on a 2" interior diameter (ID) core.

### Properties

Coating: Polymeric Non-toxic  
Surface: White - Satin  
**Caliper: 19 mil**  
Whiteness (CIE Ganz 82): 103  
Brightness(TAPPI T452): 96  
Gloss: 4.1

### Ratings

Health: - 0  
Reactivity - 0  
Flammability - 1 not spontaneously combustible

### Environment

Functional temperature range - 50° to 85° Fahrenheit  
Functional relative humidity range - 30% to 65%  
Ink dry time - varies with type and amount of ink, relative humidity and temperature.

### Inks

The coating of SC-11 canvas is designed specifically for solvent based inks.

### Applications

**Fine Art   Art Reproduction   Murals   Photography**

### Handling & Storage

Store in a cool, dry place around 70°F and 20-60% relative humidity. Always place in plastic sleeve when not in use. Never let roll lay flat on its side for extended period as damage could occur, store standing on end or suspended in box with end caps.
