

"Trusty" Inkjet Canvas

"Trusty" Inkjet Canvas is a water resistant polyblend matte coated durable canvas designed for dependability and consistent reproduction results. "Trusty" inkjet canvas was designed for aqueous printing utilizing pigmented inks to provide excellent color range, density, and uniformity. Designed to stretch easily and consistently, "Trusty" helps streamline productivity. This 17 mil medium is compatible with water borne, solvent borne, and over laminate films.

Product Categories

TruPalette Legacy Series and Aqueous Media

Available Sizes

17" X 40'; 24" X 40'; 36" X 40'; 42" X 40'; 44" X 40';
50" X 40'; 54" X 40'; and 60" X 40' available on a 2" interior diameter (ID) core.

Properties

Coating: Polymeric Non-toxic
Surface: White - Matte, Water resistant
Caliper: 17 mil
Whiteness (CIE Ganz 82): 112
Brightness(TAPPI T452): 99
Gloss(60°): 2.4

Ratings

Health: - 0
Reactivity - 0
Flammability - NFPA 1 not spontaneously combustible

Environment

Functional temperature range - 50° to 85° Fahrenheit
Functional relative humidity range - 30% to 65%
Ink dry time - varies with type and amount of ink, relative humidity and temperature.

Inks

Combined with pigmented inks, the water resistant inkjet coating provides for excellent longevity of printed images, and maintains a high degree of ultraviolet resistance. Dye based inks, while maintaining excellent vibrancy, show a slightly lower ultraviolet resistance.

Applications

**Fine Art Murals Portrait Reproductions
Art Reproduction**

Handling & Storage

Store store standing on end in a cool, dry place around 70°F and 40-60% relative humidity. Always place in plastic sleeve and suspend in box with end caps when not in use.
